

FOR FURTHER INFORMATION, PLEASE CONTACT:

Dr. Maha Merezak

Program Specialist,
Human & Social Science,
Science Directorate,
Islamic Educational, Scientific and Cultural
Organization (ISESCO),
Avenue des F.A.R., P.O. Box 2275, PC Code 10104,
Hay Ryad-Rabat, Kingdom of Morocco.
Tel: +212-537-566052/53
Fax: +212-537-566012/13
Email: merzak.maha@hotmail.com

Engr. Tajammul Hussain

Advisor (Programmes),
Commission on Science and Technology for
Sustainable Development in the South (COMSATS)
Headquarters,
Shahrah-e-Jamhuriat, G-5/2,
Islamabad, Pakistan
Tel: +92-51-9204892
Fax: +92-51-9216539
Email: husseint@comsats.net.pk

Engr. Tahir Naeem

Coordinator,
Inter Islamic Network on Information Technology
(INIT),
COMSATS Institute of Information Technology
(CIIT),
Park Road, Chak Shehzad,
Islamabad, Pakistan
Tel: +92-51-90495169
Fax: +92-51-9247006
Email: tnaem@comsats.edu.pk

Mr. Khaterchi Hechmi

Associate in Electrical Engineering,
Director of Studies and Training,
Higher Institute of Technological Studies (ISET),
Nabeul University Campus, 8000,
Nabeul, Tunisia.
Tel: +216-72-220051/72, 220043
Fax: +216-72-220033
Email: hechmi.khaterchi@yahoo.fr

- Use Full Disk Encryption (FDE) tools, including TrueCrypt and Microsoft's BitLocker;
- Understand the anti-virus, anti-spyware tools and firewalls;
- Understand the working of major web-security applications;
- Setup different web security applications, e.g. Kerberos and SET;
- Understand the working of contemporary biometrics systems;
- Understand organizational security measures, risk assessment tools and techniques and implementing appropriate policies and procedures for a given organization;
- Understand different aspects of cyber security; and
- Understand and use various types of ethical hacking tools to secure the networks, including: network sniffing, spoofing and poisoning; port scanning and vulnerability analysis; offline and online password attacks; buffer overflow; and root-kits and trojans.

FINANCIAL SUPPORT

Partial or full financial support will be provided to selected foreign participants from common Member States of COMSATS, ISESCO and INIT.

RESOURCE PERSONS

The workshop will be conducted by the following experts:

- Dr. Abbas Haider**, Research Fellow/Assistant Professor, Center of Excellence in Information Assurance, King Saud University, Saudi Arabia; and Cyber Security Officer/Assistant Professor National University of Sciences & Technology (NUST), Pakistan
- Dr. Malik Najmus Saqib**, Assistant Professor, COMSATS Institute of Information Technology (CIIT), Islamabad, Pakistan
- Mr. Zafar Mir**, Regional Manager, Information Security Risk, MENA – HSBC, Dubai, UAE
- Mr. Asad Raza**, Lecturer Information Technology (Networking & Security), Majan University College, Oman

Upon the completion of the workshop, each participant will be granted a Certificate of Participation.

**3rd COMSATS-ISESCO-INIT
International Workshop on**

**“INTERNET SECURITY:
ENHANCING INFORMATION
EXCHANGE SAFEGUARDS”**

9 - 13 December 2013
Nabeul, Tunisia

Organized by

ISESCO

COMSATS
&
CIIT

INIT

ISET

BACKGROUND

The 21st century saw rapid advancements in IT and telecommunications, particularly computing hardware and software, which resulted in the availability of smaller, inexpensive and more efficient equipment for organizations, businesses and home users. However, the widespread use of electronic devices and equipment for commercial, social and personal activities over Internet has raised many privacy and security concerns. There is an increasing demand to ensure the security of data transfer services in traditional and emerging Internet-based applications through preventing unauthorized access, misuse, modification or denial of information and information systems. Internet/information security can be ensured through adopting consistent policies and practices, and taking relevant technical measures.

Realizing the significance of Internet security, the Commission on Science and Technology for Sustainable Development in the South (COMSATS); the Islamic Educational, Scientific and Cultural Organization (ISESCO); and the Inter Islamic Network on Information Technology (INIT) took the initiative of spreading awareness on this important field in the developing countries, particularly in their Member States, by means of organizing a series of training workshops. The first two events of this series were held in Syria (2011) and Jordan (2012), respectively.

INTRODUCTION

The third five-day International Workshop on 'Internet Security: Enhancing Information Exchange Safeguards' is being jointly

organized by ISESCO; COMSATS; INIT; the Higher Institute of Technological Studies (ISET), Nabeul, Tunisia; and the COMSATS Institute of Information Technology (CIIT), Pakistan, on December 9-13, 2013, in ISET Nabeul, Tunisia.

AIMS AND OBJECTIVES

The workshop aims to provide a forum to the young scientists/researchers from the developing countries to learn about the latest advancements in the field of Internet security; promote the use of state-of-the-art technologies for protection of network and network-accessible resources from different types of malicious attacks; and identify effective Internet/information security solutions for general public, governmental organizations and commercial ventures through rigorous risk-analyses and security management approaches.

FORMAT

The workshop includes technical presentations, tutorials and hands-on training sessions by a group of renowned subject experts. It will cover major aspects of Internet/information security, ranging from theoretical understanding of cryptographic algorithms to practical subtleties of the network systems, and will also address the related managerial and technical issues. Moreover, a handful of network security tools will be demonstrated to provide opportunities to the participants to update their knowledge-base and interact with experts for further collaborative undertakings.

KEY AREAS

Following are the key topics of the workshop:

- Network Security: Modern Attacks, Evasion Techniques and Defenses
- Malicious Code Analysis and Detection
- Information Security Risk Assessment/ Management
- Measuring Security
- Ethical Issues of ICT Security
- Organizational Security Standards, Policies and Guidelines
- Hardware and Physical Security
- Operating System Security
- Android/Mobile Systems Security
- Cryptographic Techniques for Network Security
- Biometrics Security
- Web Security
- Social Network Security
- Cloud Computing Security

TARGETED INDIVIDUALS

Young researchers, practitioners, academicians, executives, system administrators, system programmers, and students working in the field of Internet/information security and cryptography are invited to participate in the workshop.

EXPECTED OUTCOMES

The workshop is expected to enable the participants to:

- Understand network protocols, models, topologies and related security threats;
- Understand major modern-day cryptographic algorithms and protocols;
- Use packet sniffing tools, including Wireshark and Tcpdump;

REGISTRATION FORM

3rd COMSATS-ISESCO-INIT
International Workshop on

“Internet Security: Enhancing Information Exchange Safeguards”

December 9-13, 2013, Nabeul, Tunisia

Name (as per passport) _____

Designation _____

Institution/Organization _____

Highest Qualification _____

Present Field of Activity _____

Postal Address _____

City _____ Country _____

Passport No. _____

Tel. _____ Fax _____

Email _____

Only for Foreign Participants

■ Boarding & Lodging Required Yes No

■ Travel Grant Required Yes No

Signature _____

Date _____

Last date for registration as a participant is November 20, 2013.
