*(For Online Registration)*

The Commission on Science and Technology for Sustainable Development in the South (COMSATS), an intergovernmental organization, is at the forefront of utilizing Science and Technology to foster sustainable socioeconomic development in the Global South. Acknowledging the pivotal role of women as a crucial, cross-cutting tool in achieving all Sustainable Development Goals (SDGs), the Commission actively commends the noteworthy contributions of women and girls in the realms of Science, Technology, and Innovation. Through its programs and activities, COMSATS highlights the transformative impact of gender equality, emphasizing the crucial importance of adopting a gender lens in addressing global challenges, including climate change, poverty reduction, healthcare, and the establishment of a sustainable economy.

## "Conversation Session" - A Meaningful Tribute to Women in Science

On the occasion of the International Day of Women and Girls in Science, the Commission on Science and Technology for Sustainable Development in the South (COMSATS) extends an invitation to participate in an enriching Conversation Session. This session is dedicated to honoring the accomplishments and significant contributions of women who have excelled in their professional journeys. The objective is to underscore the invaluable role of women in pioneering technologies, influencing the trajectory of the tech landscape, and facilitating discussions on their impactful role in shaping science and technology policies. This webinar transcends mere celebration; it represents a collaborative endeavour to cultivate a supportive community actively promoting diversity and gender inclusion, harnessing the potential of innovations in science, and technologies.
